SUSTAINABLE CLEANING TOOLS**

UNGER

Quality Tools for Smart Cleaning

INNOVATIVE AND HIGH QUALITY— THINKING CLEARLY ABOUT OUR PLANET.

Outstanding quality – now with exemplary, certified sustainability. The **GREEN LABEL** range by **UNGER** incorporates the extensive research we conducted in advance so that you can work with a clear conscience.

Recycled materials, the use of FSC™-certified natural rubber and non-hazardous materials – we do everything we possibly can for our planet.

- With **GREEN LABEL**, we help you and your customers achieve your sustainability goals.
- Independent and recognised certifications prove that **UNGER GREEN LABEL** products are guaranteed to be sustainable.
- **GREEN LABEL** is characterised by the outstanding quality typical of **UNGER** – a long useful life is a key aspect of sustainability.
- Recognisable at first glance: the striking, green-blue design shows that you are taking on responsibility – for yourself and others.

Protecting our planet, using its resources responsibly and preserving it for the next generation: Acting sustainably is an essential task for mankind and the cornerstone of the **UNGER** philosophy.

- Only the best is good enough: We don't compromise on performance and quality when developing eco-friendly products.
- We are committed to choosing the right raw material suppliers and relevant certifications.
- We incorporate customer requests into our sustainability concept via numerous customer surveys conducted beforehand.

This has resulted in the first certified, sustainable range of glass cleaning tools.

This highlights our commitment and that of our customers and shows that we are a pioneer in the industry when it comes to sustainability.

NEW

WINDOW CLEANING KIT FOR SUSTAINABLE AND PROFESSIONAL GLASS CLEANING

With all **GREEN LABEL** tools

+ New Microfibre Washer Sleeve

- made from recycled plastic from the material cycle

LIQUID:
Low environmental impact

GREEN LABEL liquid

- Gel-like concentrate
- Container made from recycled material
- Made in Germany
- Available as a 1-litre bottle

C2C Certified Material Health Certificate™ Silver

In order to obtain the Material Health Certificate, all chemicals used in the value chain must be analysed and evaluated with regard to health and environmental hazards. Dangerous chemicals are avoided and replaced with safer substances – for sustainable production.

FSC™

FSC™-certified natural rubber is used in our squeegee rubbers – for more sustainable forest management. FSC™-certified forests and plantations are managed according to stricter environmental and social principles. FSC™-certified materials can be traced throughout the supply chain at all times.

EU Ecolabel

The European Commission awards the EU Ecolabel to products that have a lower environmental impact than comparable products and are therefore healthier and more environmentally friendly. The criteria differ depending on the product group. In the case of textile and cleaning products, evaluation is based on the proportion of recycled materials, the limitation of toxic chemicals, the biodegradability as well as the cleaning performance and durability.

FOLLOW OUR LEAD AND MAKE YOUR MARK: FOR A MORE SUSTAINABLE FUTURE.
