

HIVE Heat 12 - ART. 4744103015122
HIVE Heat 12 LS - ART. 4744103015221

Wood-burning heater HIVE Heat

HIVE Heat is a highly efficient wood-burning sauna stove for smaller saunas. It has a unique structure where fresh air is conducted into the burning process from above to create a strong flame. This allows the burning to be very clean and makes sure that all the wood gets burned and no wood gas escapes the chimney and goes to waste like it often does with less efficient stoves. The furnace door is made of cast iron which is very resistant and easy to maintain.

HIVE Heat complies with BimSchV II, the German standard for wood-burning stoves. The sauna stove is treated only with natural oils without the use of chemicals.

HEATER HIVE Heat	12 kW	12 kW LS
Sauna room	6-13 m ³	6-13 m ³
Stone capacity	90 kg	90 kg
Height	750 mm	750 mm
Width	450 mm	450 mm
Depth	490 mm	640 mm
Weight	56 kg	67 kg
Firewood max	300 mm	300 mm
Flue (ø)	115 mm	115 mm

SAFETY DISTANCE*

A	170 mm	170 mm
B	500 mm	500 mm
C	1160 mm	1310 mm

* In case the HIVE Heat heater is installed near combustible material and necessary safety distance cannot be guaranteed, use a heat reflector to reduce the safety distance by half.

The sauna heater must be installed on a non-combustible surface with the required carrying capacity. If the floor material is combustible, a heat reflector must be used between the floor and heater.
